

# FlexCabling

## 10" Power/Master Link Panel (Bang and Olufsen)

## Description

This Power/Master Link Panel are used when you want to integrate Bang and Olufsen BeoNet in your FlexCabling network.

The Panel comes without the Power/Master Link module, and you have to use the original Bang and Olufsen Power/Master Link modules.

Note: When you integrate Bang and Olufsen in your FlexCabling network, you have to use the Bang and Olufsen recommended connectors, and network cables from Tyco (AMP Netconnect).

With BeoNet you can integrate Bang and Olufsen Masterlink and Powerlink in your FlexCabling network.

## Type: 10" Power/Master Link Panel (B and O)

Input/Output: 1 hole f. BeoNet Power/Master Link module.

Weight: 250g.

Colour: Black

Dimensions: 255mm(W) x 44mm(H) x 75mm(D)
